REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: Prior art fails to disclose or teach a cab door with two door panels hinged together and freely connected by use of the intermediary hinges, whereby said first and second panels form a substantially continuous arc and are freely movable with respect to each other during folding movement. Applicant argument regarding prior art was persuasive, the gas damper connecting the two door panels of the prior art would protrude into the cab area and stick out from the cab when the panels are open, hazardous to operator. Therefore the panels being freely moveable with respect to each other is patentably distinct of prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
